## Upload Image to IBM Container Registry

The screenshot shows the IBM Cloud Container Registry interface. The left sidebar contains navigation links: IBM Cloud, Container Registry, Quick start, Namespaces (2), Repositories (0), Images (0), Trash (0), and Settings. The main content area is titled 'Namespaces' and shows a table of existing namespaces. The location is set to 'Tokyo'. The table lists two namespaces: 'harish-web' and 'smart-fashion', both in the 'Default' resource group with 0 repository and image counts, and a retention policy of 'Retain all images'. A 'Create' button is visible in the top right of the namespace list. The bottom of the screen shows a Windows taskbar with various application icons and system status information (26°C, Cloudy, 21:28, 14-11-2022).

Namespaces

Location: Tokyo

Resource group: Filter... Search

| Name          | Resource group | Repository count | Image count | Retention policy  |
|---------------|----------------|------------------|-------------|-------------------|
| harish-web    | Default        | 0                | 0           | Retain all images |
| smart-fashion | Default        | 0                | 0           | Retain all images |
